### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of Group I, claims 14-18, and the species of claim 16 (iii) in the reply filed on 8 May 2008 is acknowledged. The traversal is on the ground(s) that:

“(b)ecause this application is a national stage filing pursuant to 35 U.S.C. § 371, unity of invention under PCT Rule 13.1 and 13.2 is the applicable standard. Unity of invention is fulfilled "when there is a technical relationship among those inventions involving one or more of the same or corresponding special technical feature. The expression "special technical feature" shall mean those technical features that define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art." (PCT Rule 13.2).”

This is not found persuasive because, as pointed out the Group I claims are drawn to a composition. Group II, subject to rejoinder, is drawn to a method of making that composition, which may be made by another and materially different process. The Group III claims are drawn to a method of use of the composition and are subject to rejoinder. Group IV, however, fails to show Unity since that Group is drawn to a method of "hydrophilicizing polymers." as such, lack of Unity of Invention has been shown.

The requirement is still deemed proper and is therefore made FINAL.

Claims 17 and 19-26 are withdrawn from consideration as being drawn to inventions, or species, non-elected with traverse.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 14, 16 and 18 are rejected under 35 U.S.C. 102(B) as being clearly anticipated by Takemura et al (EP 0 673 949), cited by applicant.

Note page 11 (line 11) to page 12 (line 6). page 19 (lines 20-39) and claims 4-25 of the document.

Claims 14, 15, 16 and 18 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Baxter, Jr. et al, newly cited.

Note the Abstract, column 4 (lines 17-27) and column 7 (lines 56 et seq.).
